The DSG Global *difference*

Our approach places us in an elite position among top executive search firms. With a deep and nuanced understanding of the complex and dynamic ecosystem of the healthcare industry, we recruit inclusive, transformational leaders prepared to navigate an evolving landscape.

Unmatched capabilities

Our team is dedicated to finding leaders capable of transforming the healthcare industry to ensure access to high-quality care while sustaining business performance.

Personalized Service

Our Managing Directors work directly with clients in a personalized way, unlocking a vast network of world-class healthcare leaders.

Non-obvious solutions

Our collective approach allows us to recruit in creative ways and find the most-coveted and capable leaders in healthcare.

Decades of Success

We are a pioneer in executive search and consulting services, and have been honored by Modern Healthcare as a top 10 retained search firms for over a decade.

Sectors We Serve

We partner with academic medical centers, integrated delivery systems, physician groups, children's hospitals, managed care organizations, and community-based medical centers to provide leadership solutions across the continuum.

DSG Global covers placements in a broad range of healthcare sectors including:

- Medical Schools
- Academic Medical Centers
- Hospitals and Health Systems
- Physician Group Practices
- Community Health Centers and Federally Qualified Health Centers
- Payers
- Behavioral and Mental Health
- Healthcare Technology

Our Impact

DSG Global takes a pioneering approach to identifying candidates who will lead your healthcare organization to outperform its peers.

87% of our leaders have stayed in their roles for more than two years

84% of our searches are for returning clients

19 years recognized by Modern Healthcare as a top 10 Healthcare Executive Search Firm

Sector Expertise

Federally Qualified Health Centers (FQHCs) are a cornerstone of the nation's healthcare safety net, delivering comprehensive care to underserved populations in rural, urban, and suburban communities.

Their mission-driven model requires leaders who can navigate complex regulatory environments, expand access to care, and address the social determinants of health.
